

# READ THE QUOTE BEFORE YOU PAY TO REGRADE

## 4-6% CROWN, NOT 2%

-- IF CROWN ISN'T NAMED, IT ISN'T PLANNED --

SAVE THIS BEFORE YOU COMPARE DRIVEWAY QUOTES

### KEY-FACTS - WHAT THE QUOTE MUST SPELL OUT

#### 4-6%

**CROWN CROSS-SLOPE**

Gravel needs more than paved-road 2%.

#### 2x4 TEST

**DIY CROWN CHECK**

Lay a board across -- the middle should sit higher.

#### ABC + #67

**GRAVEL SPEC BY NAME**

Base course plus the right surface stone.

#### PROOF-ROLL

**COMPACTION VERIFIED**

A loaded-truck pass, witnessed -- not assumed.

#### WARNING

### WE'LL ADD A FEW LOADS AND GRADE IT

That sentence with no base treatment and no crown spec is a patch, not a quote. On a driveway with a real base problem it fails inside 24 months.
